How can your staff become an effective part of your organisation's cybersecurity defences?

Cultivate a risk-aware security culture

with

CYBILITY
Demystifying Cybersecurity

How?

SECURITY CULTURE

"The beliefs, values, and attitudes that drive employee behaviours to protect and defend the organisation from cyber-attacks"

Keman Huang and Keri Pearlson (MIT)

To change behaviour and create a security culture, it takes time and consistent reinforcement!

Our Managed Cybersecurity Culture Service is a cost-effective and time-saving way to foster a security culture
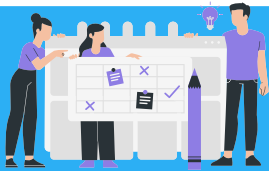

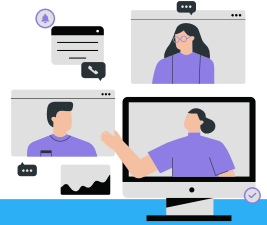

We do the hard work so you don't have to

CYBILITY
Demystifying Cybersecurity

MANAGED SECURITY CULTURE SERVICE

How does it work?

Our Context Lenses™ workshop makes it easy for you to bring us up to speed.
We begin with your organisation's mission, strategy, culture, challenges, and successes.

Proven strategy and implementation plan to reduce Human Risk

Cybersecurity calendar with monthly themes/campaigns

Induction content, e.g., reference card with security principles on how to report a risk, issue, or incident

Quarterly CybilityXP Program Management Update meetings including impact metrics

Branded communication content (distribution ready)

## Small steps lead to big changes

CYBILITYXP FACILITATORS

Michala Liavaag
Lead consultant

Dr. Ana Garner
L&D Consultant

Michala works as a Chief Information Security Officer (CISO) advisor, virtual CISO, and cybersecurity consultant. She spent 20 years in IT and over a decade leading information governance and security programmes across local government, healthcare, charity and private sectors.

Ana has vast experience in designing and delivering learning experiences (online, blended, and face-to-face). She uses techniques like gamification, storytelling and active learning to create engaging cybersecurity training and awareness programs.
